"Where there is a will, there is a way"

In my opinion, this proverb means that person can get out from all situations. The main thing is never giving up!

For instance, my friend had a situation: there was an argument with my friend and he was really obsessed after that. I thought that our friendship is going to break, but I found right to talk about it with a friend again. Yes, I was really scared to do it, but in the end this story has good end. We're still friends!

There's one more example. In the end of my study year, I had a lot of problems with marks. So, I could give up and leave it at this. I thought there's no way. But I wrote some exercises, tried to study better and got good results! So, I absolutely agree with this proverb and think that it's useful to our life.
