7.	D	7.	c —
8.	A	8.	e —
9.	e	9.	
10.	D		
11.	D		

$$348 + 9 = 43$$

Where there is a will there is a way. In my opinion, this proverb means that you ~~will~~ can always find a way to do or reach something if you truly want it.

I agree with this proverb. In its support I want to ~~number~~ ^{list} a few reasons. ~~Firstly, things first~~ Firstly, if you will actually put some efforts, no doubts that it leads to some results. The second reason, is that the harder you strive, the ~~more~~ bigger ~~are~~ is your success.

In ^{addition to} ~~prove~~ my opinion, I want to tell about a book, which is directly shows that this proverb is a true one. This book called "Martin Eden" and written by Jack London. Author tells a story about a poor man who works as a seaman. He wasn't educated at all. But one day he ~~meets~~ met a woman and fell in love with her. This woman was rich and smart. Martin understood that if he wants to be with this woman, he needs to start educate himself and earn ~~more~~ much more money than he has. Martin got through tough ordeal: he slept for ~~no~~ to four hours, reading books and writing his own, he did not even eat. But in the end, he reached a lot. He became successful writer, got loving girlfriend.

To sum up, I want to say that if someone wants to reach something, there will always be a way to do it. It will not be easy for someone even can ~~to~~ face a tough situation, which ~~are~~ require a real courage. Someone can face ~~to~~ intimidate. But ~~to reach your goals~~ you need to get through all difficult things.
