Today, I would like to comment on this Proverb  
"Where there is a will there is a way."

First of all, I understand this proverb like motivation senters. If you have an aim, you need to start doing some steps to reach it. This proverb the same like "If you can imagine something, you can reach it." ~~With~~ Without any strive, effort and preparation you will never get what you want.

Personally, I had one aim and it was the same like a dream. I wanted to become a champion of Russia in bandy sport. And the result of my dream was positive. I with my team became a champion of Russia. I sure that without any intensive trainings, courage and the right approach to games. We wouldn't have passed this ordeal.

There

Secondly, I have read a lot of books about business and approximately 90 percent of all writers of these books say, that on the right way you will always meet somekind of intimidate and problems, but if you pass this hard way, you will reach your aim.

In the final part of my text, I would like to say that the desire to give up comes one step before success.
